APRIL AND MAY REPORT 2021

Greetings from Toro Babies Home in the name of our Lord Jesus Christ.

Toro Babies Home wishes you all the best in whatever you're doing.

HOME STATUS

The Home is moving on well with 45 children 22 girls and 23 boys.

NEW CHILDREN

We didn't receive new babies in these 2 months and our number is not so high.

The Staff is fine and working hard to make the Home move on well. Mother Lucy is not fine and she is no longer working because her case now needs her to rest because she takes a lot of drugs.

Teacher Irene is doing well and the children like her classes. The study center is well equipped with all the study materials.

We resettled 1 child Ainebyona Daniel to his family. The father is an army man and he is back in Uganda and he can settle with his child whose mother abandoned him.

Physiotherapy

The physiotherapy classes are going on well and we go to their office at least 5 times a month. They come to our office 2 times a months and visiting their office helped us so much.

We have one volunteer who is a nursery teacher called Ruth, she has helped Gift so much. She goes with her to the physiotherapist and everyday she makes exercises with her and Gift is the happiest these days. She started volunteering in February and up to now she is doing a great job in helping Gift.

 A woman wearing a white t-shirt with a graphic and dark pants is sitting on a colorful patterned rug. She is holding a baby who is wearing a white shirt and blue patterned pants. The baby appears to be resting or sleeping.	 A woman wearing a colorful patterned sleeveless top is sitting on a blue plastic chair at a table. She is feeding a baby who is sitting in a high chair. There is a plate of food on the table.

Baby Keron with Hydrocepluse visited the hospital again on 26th April 2021 and the doctor measured the head and found it's no longer increasing and gave us more 2 months to go back for review on 28th June 2021. The doctors said there is no need for surgery now but in June they will give us a way forward.

Tendo Lana had a problem with her anus, whenever she could go on a toilet the rectum comes out, but she was operated and now very fine.

Thank you Marina for all the treatment of Tendo.

Kasiisi project

Kasiisi is doing well. The farmers have already started planting new crops. They have planted beans, cassava, maize, sweet potatoes, pumpkins and some vegetables.

Kagote project

Kagote is doing very well too. The plantation is doing well and we have planted some vegetables.

We harvest matooke every week and Tadeo is doing a great job.

Appreciation

- i. We appreciate the international Donor Children Need Parents who continuously support the running of the Home, pay staff salaries and daily food and milk that we feed the children , Partner Chaft Gesude Welt (Marina)who help in the daily running of the Home, some renovations like repairing the ceiling in all the Houses and veranda and making new curtains and Rods for all the Houses and treatment of Keron , Volunteers and the local Donors who continuously support the Home especially in this Covid 19 crisis.**
- ii. We thank Marina for all the love and support, when she repaired the ceiling in all the houses and the licking roof.**
