INTRODUCTION

TORO BABIES HOME

Greetings from Toro babies Home, we are grateful for the care that you always give us. Currently the home is taking care of 53 children of whom 24 are girls and 29 are boys. We have 9 children who are between 0-3 months.

We are generally doing well though some children continue to visit hospital for medical attention. We had one referral from Buhinga regional hospital to Nsambya for specialized operation and was successful. Nyamata Suzan who was operated is currently recovering and is steadily doing well.

CHILDREN TO SCHOOL

Our School going children started their 3rd term successfully. These include children at EARLY Bird primary school, and our special needs children at Canon Apollo School.

We pass our sincere appreciation to everyone who sees that children are at school through meeting their scholastic materials ranging from school fees, books, food, fuel, and others.

We may not appreciate enough God's reward awaits you.

PHYSIOTHERAPY

Physiotherapy sessions for Gift and Maria (Above) were conducted at the Home on a number of days. However there more physiotherapy sessions which are ongoing at Kyanninga. The Extra Physiotherapy sessions were sponsored by the Spanish Volunteers at the Home.

There is a big change in the children life because Maria can walk on objects, then Gifts body is a bit soft and can move slowly. Appreciation to Marina friends for sponsoring physiotherapy sessions at Kyanninga.

TRANSFERS

Two children were transferred to Love Without Boundaries, Love without Boundaries is a antinational organization that trains foster parents, does family tracing, and provides home for the children. These children are, Singura Godwin, and Kahwa Talesi.

These children were older and ready to be transferred. When the opportunity arose of being resettled with a love without boundaries, it was utilized.

KIDS AT THEIR FOSTER PARENT

They got a foster family in Nyakasura in Fort Portal Kabarole. They are currently at Kanoni Apollo Primary school. Monitoring will continue for one year to ensure their safety.

The life of these kids had tremendously changed as portrayed on the pictures of their admission and at transfer.

VOLUNTEERS

This month we receive German volunteers and they are going to be with us for 8 months. They are being oriented into daily activities of Toro Babies Home. In the middle is Marina at TBH who had come to check them.

We appreciate they tireless effort in catching up with Children life at Toro Babies Home We

thank the Spanish volunteers for **donating a seat to Gift.**

In addition, the existing Volunteers are doing well, they participate daily activities of feeding, playing, and sometimes documentation of health life of the children.

VISTORS.

We received **friends of Marina** at TBH, prior to their visit, they had celebrated **Marina's birth day** and later the visitors accompanied Marina to TBH. Marina brought **a cake to mothers and clothes to children at the Home**. We appreciate the gesture of love to our children.
