END OF MAY 2022 REPORT

I greet you all in the name of our Lord Jesus Christ. We praise God that we are pushing on well though with some few challenges.

We lost our child Rachael Kirungi but we thank God for the time she spent with us and we know she is in a better place, may her soul rest in peace.

The siblings saying farewell to Rachael

The Matron giving some remarks about her death

Home Status

The Home is moving on well with 52 children now, 28 boys and 24 girls. The Home has 22 Staff and 07 volunteers and they are doing a great job by attending to their regular duties.

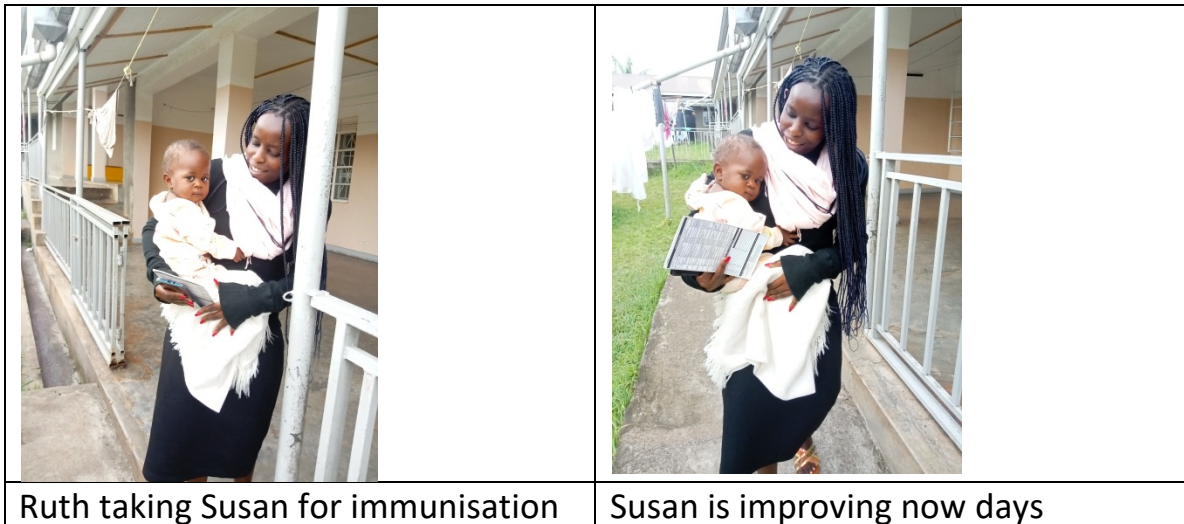

NEW BABIES

We got 4 babies 1 girl Susan NyamataMusiimenta and 3 boys Mugisaldrisa Moses Musa, Lucky Jayden and ObedKule Jacob

1. Susan NyamataMusiimenta

Susan is 6 months old, the mother is seriously sick with HIV and Cancer which cannot make her look after Susan and other siblings. Susan has other 4 siblings who are also helpless with no father because he died some few months back.

Susan is also going through some medical checkups to see that her health is in good condition free from HIV.

2. Mugisaldrisa Moses Musa

Moses was abandoned at the river in the morning by 5am and while the children were going to school they heard the baby crying, they ran back home and told their mother.

They picked him and was taken to police and later to the hospital for checkup. He was found fine and was referred to our Home.

Moses on the 1st day he came

Mother taking him to hospital

3. ObedKule Jacob

Obed is born of mentally sick parents. All her parents are mentally sick and they couldn't take care of him. The relatives are unable to take care of him and they reported the case to the social worker to place him in our Home. He has not been fine ever since he was admitted here but he got treatment and some improvement is seen.

	
Obed in his bed	Judith carrying Obed

4. Lucky Jayden

Jayden came when he was 5 months old. His mother is 17 years and is back in school by some well-wishers. His father is 19 years and could not take care of this baby and he ran away. He is looking good and healthy.

		
Jayden and the mother on the 1 st day	Matron Betty carrying Jayden	Julius the driver carrying Jayden to the hospital

RESETTLING OF CHILDREN

We didn't resettle any child this month but hopefully we may resettle some in July.

SCHOOL

The school going children are back in school and they are doing well. We have 13 children who go to school every day and 3 children with disability who are in a Boarding school and they like their school so much.

Teacher Irene taking children to school

Driver Julius bringing children from school

Annet was happy about going back to school

They reported back to school. The Head teacher welcomed them

Mary and Dorothy in their dormitory

MEDICATION

We have taken some children to the hospital because of cough and flu and especially the new ones who were admitted and they are doing well.

PHYSIOTHERAPY CLASSES:

The physiotherapy classes are on and the volunteers are trained always and they are doing a great job with the disabled children.

They also work on other children which help them get enough exercises.

	
<p>Keron is a very happy boy and plays a lot</p>	<p>Aggrey is improving greatly</p>

Aggrey eating his food from the nutrition hospital

Christiana making exercises with Aggrey

SPECIAL MEALS FOR CHILDREN

We still have our special meals for some children and we see some changes in their health. Ruth our volunteer and Annet the laundry mother prepare this food. These two ladies have done a great job to prepare this meal, I appreciate their services.

Kasiisi project

Kasiisi is doing well. We are harvesting crops like beans, maize, sweet potatoes, cassava, pumpkins and many others. We get vegetables from the gardens too.

Harvested beans, matooke, cassava and a yellow banana, pumpkins and sweet potatoes

The plantation is looking good with some beans

Cassava ready to be harvested

A garden of maize and beans

The farmers are doing well and we have more gardens of sweet potatoes.

Kagote project

Kagoteproject is doing a great job. The plantation is doing well and we harvest some matooke every week. We are harvesting some beans and vegetables this season.

Jackfruit in Kagote has some ready fruits to be eaten

Challenges

1. We have the challenge of the increased prices of commodities. Most of the things the prices are high almost 3 times the normal price.
2. No enough infant milk formula. The milk is not enough because we have many new babies.

Appreciation

- i. We appreciate the international Donors especially Children Need Parents who continuously support the running of the Home, pay staff salaries and pay schools fees for our children with disability and pay medical insurance for children and staff. We appreciate the love and care you normally show us. The Staff is appreciating you for recognizing their tireless work.

- ii. Partnerschaft Gesude Welt who help in the daily running of the Home and paying all the medical bills.
- iii. To the volunteer Ruth who helps the children with physiotherapy and she has really put a smile on these children especially Gift. Gift got a dislocation on the arm but she is improving.

	
<p>Ruth showering Gift and Gift feels very happy with her.</p>	<p>Ruth playing with Gift</p>

- iv. To the Germany Volunteers Carla, Judith, Christiana and the Spanish Volunteers who help in so many house chores and doing exercises with the disabled children. We appreciate them for paying school fees for some children. They sometimes celebrate the birthdays of children and they feel so happy.

	
<p>Volunteers do a lot of work to help the mothers</p>	<p>Judith feeding baby Obed</p>

	
<p>Christiana and Judith playing with the children</p>	<p>Teacher Irene playing with children who don't go to school.</p>

- v. To all the staff members who make this Home move on very well and always putting a smile on these innocent souls. I appreciate their efforts.
- vi. To all the Trustees and Board Members for the love and support despite of the little time they have.

Thank you for the Care you give us.
